MULTIplus counter system

Flexible modular design

» Counters in modular design

flexible & reliable in planning

black | RAL 7035 light grey | Decor Inox grey

Tabeltop

Planning

- The minimum configuration consists of one start and one end module.
- Any number of middle and corner modules can be built between the start and end modules.
- The start and end modules each contain an end panel.
- The worktops for the counter modules please order separately!

Information

- Delivery unmounted (Module frame pre-mounted)
- Cabling possible on site, cable duct can be mounted
- Power connections & outlet for cables in the worktop possible on site

Assembly dimensions

- Module depth: 750 und 1,000 mm
- Module height Top edge:1.035 mm incl. Worktop
- Overhang worktop
  Custumer side: 108 mm
  Operator side: 36 mm
- Thickness Worktop: 28 mm
- Depth Worktop: 780 mm

Storage options

Each counter module is equipped with two **MULTIplus150** shelves and offers plenty of storage space.

Accessories

The modules can be optionally equipped with a drawer unit or a shelf drawer.

Worktop

You can order functional worktops in Inox grey decor to go with every counter module.

Worktop details:
- Decor board 28 mm chipboard P2
- All round with edge banding
- 2 mm safety edge
- segmented per module

Product features

- The modular design allows quick and easy configuration.
- Each module is supplied with 2 **MULTIplus150** shelves and a plinth cover as standard.
- The height of the shelves can be adjusted in 25 mm increments.
- All modules can be ordered **with or without** worktop.

  You can also procure the worktops individually on site, e.g. for continuous worktops, your own dimensions or other surfaces.
- All modules are equipped with front panels in the colour combination black/light grey.
- The modules can optionally be fitted with a drawer unit or a shelf drawer.
- If required, the counters can be extended with additional modules.

Plan your desired counter on page 6!
